

ADAC HEMS Academy

Health and Hygiene Concept

What we are doing to keep you safe

In order to protect our customers and employees from the further spread of the Covid-19 virus, we undertake to comply with the following infection control principles and hygiene rules at our academy (these are not intended to overrule the customer organisation's own Covid-19 hygiene concept!):

We take care to ensure the minimum distance of 1.5 meters between people at all times.

Wearing a medical face mask is mandatory at all times when moving around the building (see picture 3). We can provide masks where necessary.

Customers and employees with respiratory symptoms should not be on company premises.

We encourage employees to work from home whenever possible.

All non-essential meetings and visits are now restricted and where possible performed remotely to reduce the number of people on company premises.

Employees are provided with Covid self-tests and are encouraged to perform these tests regularly. Self-tests are also available to customers should these be required.

We ensure that the customer lounge, offices and meeting rooms are regularly ventilated, and we have air purifiers in the lounge and in the main conference room.

Hand hygiene

- Hand sanitisation dispensers are located throughout the building (see pictures 1 & 2)

Control and regulation of employee and customer traffic

- Two people allowed in the customer kitchen at any one time (see pictures 9 & 10)
- Defined entrance and exits into and out of the simulator hall (see picture 11)

Access of external persons to company premises

- Visitor logging (see picture 4)

Information posters displayed throughout the building to raise awareness (see pictures 5 & 6)

Simulator hygiene measures:

- Plexiglas screen between IOS and cockpit
- Hand sanitiser by the entrance to each simulator (see Pictures 7 & 8)
- Sanitisation wipes for use on headsets
- Fresh air circulated through the sim during training

Let's work together to keep one another safe!
