Our competence

ADAC Air Rescue Service

With more than 50 rescue helicopters and 37 bases, the ADAC Luftrettung is one of the largest air rescue organizations in Europe. Flying more than 50.000 rescue missions per year, ADAC Luftrettung has an exceptional experience in all areas of EMS, HEMS and HICAMS. The ADAC HEMS Academy is a subsidiary of ADAC Luftrettung.

International experience

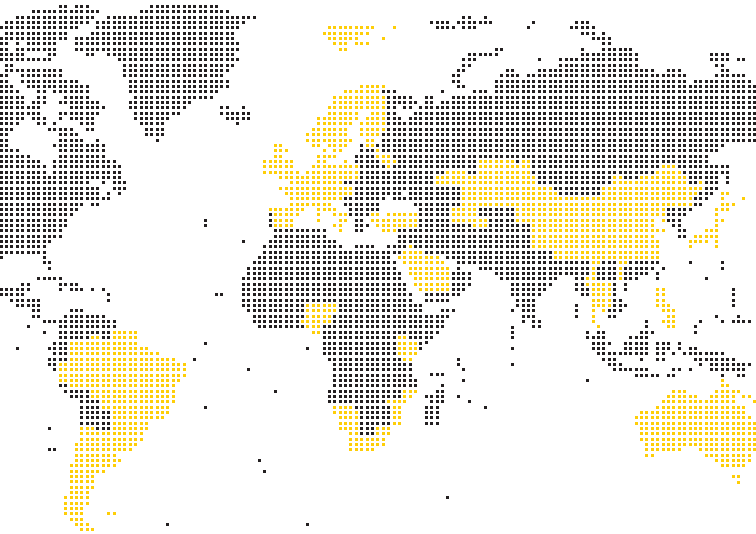

Based on this exceptional operational experience, the ADAC HEMS Academy is in constant global exchange with other organizations and training facilities. This enables us to offer customized support for the implementation and further development of EMS and HEMS adapted to any specific demand worldwide.

Training wherever it is needed

We conduct training both at our own training facility and onsite at customers´ premises. Adapted to individual needs, we always find the most efficient and goal directed training solution. Do not hesitate to contact us if you are looking for support to develop the competences of the personnel in your emergency care system.
